Subject: Scottish Slalom Report for AGM

Report on Scottish Canoe Slalom for the 2022 BC Slalom ACM

Slalom Racing in Scotland got almost back to some sort of normal in 2022 with a great selection of races across the country.

We would like to thank all volunteers who supported the Scottish Racing Calendar.

The SCA slalom ACM was held after the Scottish champs and was well attended. We have a fully staffed committee with representation from all Slalom clubs in Scotland.

Club participation

Slalom in Scotland is focussed round just a handful of clubs and there is a very supportive ethos particularly for supporting events run by other clubs. Participation numbers remain lower than we would like but there is a steady stream of new

Selection

2022 saw another great set of results for Scots qualifying for British teams at all age groups. Scotland continues to deliver a disproportionate %age of GB Team members given the numbers competing in Scotland.

Summer Camp

2022 saw the reintroduction of Scottish Summer Camps in France. Over 50 paddlers attended over the 2 weeks. Huge thanks to Jane Gibson as main organiser and all the coaches who help make this annual trip such a success.

2023

We have a great calendar of events across the divisions for 2023. Hoping that the motion to allow "Double" events will help with participation numbers.

I'd like to thank all volunteers working in Scottish slalom at club and national level, at grass roots and performance.
