
Safeguarding Process Guidance and Templates

Paddle UK has developed several key pieces of safeguarding process guidance and template documents to make it easier for you to navigate the ins and outs of safeguarding compliance and best practice. These documents cover subjects such as confidentiality guidelines, digital communication, training requirements and much more.

You can access them by following these links ->

[**Safeguarding Guidance and Templates**](#)

[**Reporting a Safeguarding Concern**](#)

[**Online Incident Reporting**](#)

[**Safety Documents**](#)

[**Standards for Deployment**](#)

Previously, individual documents were added to the Organiser Pack, but these were not necessarily the most up-to-date versions.

All of the templates can be downloaded for offline use, ensuring organisers have the latest information.
